

# **WHY STOCK ROBO-TEK?**

## ***A message for the Shop Owner from the Director of Robo-Tek***

**I understand that to stock any product in your store, there is always a risk.**

You take the manufacturer's word that their products are quality, tested, safe and they work as they say they do – and after all that, if you sell it, you have to stand by it.

### **It's your reputation.**

However, unlike many large faceless companies, the Robo-Tek brand belongs to an individual; me, and I will protect my brand vigorously. That means, your customer, is my customer, and their satisfaction with our products is paramount.

### **It's our reputation.**

That's why we live by the Robo-Tek promise.

### **“If we don't get it right, we will make it right!”**

Our product really works, and our sales service is second to none. 7 days a week, 8am - 8pm Monday through Friday with Weekend and Public Holidays covered too, 9am till 4pm (AEST)

If you are alerted to a problem, make it Robo-Tek's problem, simply let us know, and it will be sorted.

But don't take my word for it.

Take the word of our customers that have the Robo-Plus as Product Review's award winner of 2021, 2022 and now 2023.

By stocking and selling Robo-Tek, you can confidently endorse a brand that will protect your reputation as much as we will ours.
